

Three Kingdoms

三國

After the break up of the Han dynasty (206BC-220AD) China entered a period of division and civil war, the Three Kingdoms' period. The military strategies and campaigns of this chivalrous era provide the setting for the Three Kingdoms saga, characterized by a rich person gallery and intricate plot development. The sequence of events is roughly based on historical fact, and most of the characters can be verified in historical sources. From the north, Cao Cao, a former Han minister, tries to unify China under his own leadership. His main

opponent, Liu Bei, a direct descendant of the Han imperial family, is based in the southwest. In the following episodes we meet these and other heroes of martial and intellectual genius : Guan Yu and Zhuge Liang.
